Executive Director's Message

Several years ago the Association of Schools and Colleges of Optometry began the process of revising its Annual Survey of Optometric Education data collection instrument. This revision was undertaken in accordance with the priority given to data collection in the ASCO Strategic Plan for Optometric Education, 1986-91. Last year the revised survey was used for the first time, and the 1989-90 results were presented in a new computerized format.

The attached 1990-91 survey report represents the results of the second administration of the revised survey. Some minor changes were made to the survey instrument in response to school comments regarding last year's survey. We hope that the attached results are clear and that they supply the information that you need about schools and colleges of optometry in the past academic year.

Special thanks go to Joanne Zuckerman, Manager, Student Affairs and Information Services, who effectively and efficiently managed the project; John Pickler, our computer consultant, who was always available to handle the "glitches", and Alexandra Mazzitti who was so helpful in completing the project.

All comments are welcome and should be directed to either Joanne Zuckerman or me, at the ASCO national office.

Sincerely,

Martin A. Wall

Martin A. Wall
Executive Director

12/12/91

9. Does school have a policy which permits admission of students with advanced standing (excluding graduates of foreign schools), at a 2nd, 3rd, or 4th year level? If yes, explain:

FSU	No	--
IAUPR	Yes	We do accept situations for advanced standing but just for second and third year students. We require at least 80 credits for completion of the O.D. degree. To date we have not admitted any such student.
ICO	Yes	ICO students may be exempt from a required course by virtue of having taken and passed (with a grade of B or higher) a similar course prior to entering ICO.
